BIO

Ukrainian witch house producer MAN1K creates ritualistic sonic experiences that transcend conventional performance. Since emerging in February 2023, he has built a reputation for atmospheric productions characterized by heavy reverb, pitched vocals, and haunting textures that explore dissociation, melancholy, and tension. Operating independently with strategic support from ENIGMATIQUE MEDIA, MAN1K has evolved from solo artist to cultural architect - organizing international events, founding collaborative projects, and rebuilding underground infrastructure.

PHILOSOPHY

Each composition reflects genuine personal journey, treating performance as emotional portal rather than entertainment. This commitment stems from lifelong passion for music and unwavering belief in creative freedom.
